**Substance of Interview**

(For each issue discussed, provide a detailed description and indicate if agreement was reached. Some topics may include: identification or clarification of a reference or a portion thereof, claim interpretation, proposed amendments, arguments of any applied references etc...)

Examiner found another good prior art reference Anderson (US7,280,651) to reject the claims limitations (see abstract; fig.4; col.2-col.10). Examiner suggested the applicant's representative to incorporate determining step of claim 7 along with limitations of claim 12 in claim 1 to make the claim 1 allowable. Similar changes need to be made in all of other independent claims in order to allow the case. The applicant's representative suggested the examiner to generate new action so that the applicant can review the action and consider the suggested incorporation to make the case allowable.

**Applicant recordation instructions:** It is not necessary for applicant to provide a separate record of the substance of interview.

**Examiner recordation instructions:** Examiners must summarize the substance of any interview of record. A complete and proper recordation of the substance of an interview should include the items listed in MPEP 713.04 for complete and proper recordation, including the identification of the general thrust of each argument or issue discussed, a general indication of any other pertinent matters discussed regarding patentability and the general results or outcome of the interview, to include an indication as to whether or not agreement was reached on the issues raised.
